ATLANTA, Ga. — Michael D. Brown, Under Secretary of Homeland Security for Emergency Preparedness and Response, announced 484 grants to fire departments throughout the U.S. in the twenty-seventh round of the *2003 Assistance to Firefighters Grant* program. The grants will total approximately 7,000 awards worth \$750 million in direct assistance to firefighters.

Included in the announcement were awards for 8 communities in Kentucky.

"Putting these funds directly into fire departments across the country has enabled our first responders to receive the training and equipment necessary to save lives and property when threatened by a hazardous material hazard," said Brown. "President Bush, Secretary Ridge and I wish our nation's first responders a safe and happy holiday. We thank these brave men and women for their service over the past year and will remain steadfast in our commitment to support America's firefighters in 2004."

This twenty-seventh round of grants provides over \$46.8 million to help local fire departments purchase firefighting equipment, fund firefighter health and safety programs, enhance emergency medical services programs, and conduct fire prevention and safety programs. Nearly 7,300 fire departments have received over \$564 million to support their role as first responders in the neighborhoods and communities they serve as firefighters.

The program assists rural and suburban fire departments throughout the United States. A list of all current award recipients announced to date is posted on the USFA web site at <http://www.usfa.fema.gov/grants>. Full recipients will be listed as awards are made.

On March 1, 2003, FEMA became part of the U.S. Department of Homeland Security.
